

SAFETY INTERACTIVE WEB SITES

Interactive Web Sites

There are a number of web sites, Canadian and others, which include a variety of interactive activities to allow students to become more aware of workplace safety. A short description and web site addresses of these sites are listed in the safety section of the accompanying disc.

E-Learning Games and Tests

Students can take a short health and safety course and receive a printable certificate for their portfolio. While there, students can play a variety of fun games demonstrating hazards in common workplace settings. Students really enjoy the visuals of this site and learn while having fun. Website prepared by *SafeWork SA, Australia*

www.safework.sa.gov.au

For specific games please click on Resources; Education & Training; Activities and Tests:

- ☐ Hunt the hazards
- ☐ Virtual Hotel
- ☐ Virtual Kitchen
- ☐ Virtual Office
- ☐ Virtual Supermarket
